

Company Profile

CLIPFINE

HISTORY

- Clipfine was founded in 1975 by Thomas MacCarron.
- During the 1990's Clipfine identified the lack of integration between materials handling, waste removal, welfare provision and logistics operations, and recognised that the amalgamation of these services would lead to safer and more efficiently organised building projects.
- Today Clipfine works on some of the most prestigious and challenging projects in the UK. Proud to run a company that for over 30 years has been seen to be consistently reactive and reliable, with a large, directly employed workforce.
